Ohio’s system of community schools, aka charter schools, appropriately defines the roles and responsibilities of all stakeholders. The organizational structure loosely parallels that of traditional public schools: high-level oversight by the Ohio Department of Education (ODE); ongoing oversight, monitoring and technical assistance provided by sponsors; key policy-setting, performance goal setting/monitoring and decision making by boards; and, day-to-day operations managed by individual superintendents and school leaders or through services provided by contracted educational service providers or management companies.
